

# Mobile App Quick Start Guide

So, you've downloaded the xMatters app (available from [Google Play](#) or the [App Store](#)) and now you're wondering, "What's next?" Here's a quick step-by-step guide to help you get started!

## Wait, what's in it for me?

- **Manage your devices and schedule** right from the app – no need to log in to the web UI.
- **Biometric login options** make it easier and quicker for you to get into the app.
- Need a break? **Set up temporary absences/replacements** when you're on the go.
- **Respond instantly and add comments** to active alerts.
- **Create on-call reminders** so you're always ready for your next shift.
- Take control of your incidents: **send messages, manage active events, quickly connect to your teams**, and much, much more.

For a more detailed look at all the xMatters mobile app features, check out our [complete guide for new users](#).

## Log in

Log in using your company instance name and credentials provided to you by your supervisor, (or, if you have access to the web UI, you can use the **QR Code** displayed when you add the app as a device to your profile).

## Respond to alerts

Open a notification to see more information and details about an alert. Tap a choice to respond - and even add a comment if you want to give more context.

## Check your schedule

Easily check your on-call schedule and even set temporary absences through the xMatters mobile app. Just tap **My Schedule** to view a list of upcoming shifts or a monthly overview.
